Career Objective

With my education and competencies, I aim to contribute to the goals of the organizations I work with by leveraging both my technical knowledge and my marketing expertise. As an Electrical & Electronics Engineer, my focus is on energy and technology projects, ensuring efficiency, sustainability, and innovation. In parallel, I have developed strong skills in digital marketing — including SEO, Google/Facebook/Instagram advertising, and target-audience-oriented campaigns which I apply to increase customer acquisition, strengthen brand awareness, and enhance market visibility. My long-term goals include taking on senior leadership roles, realizing innovative projects that integrate engineering and marketing, and building international collaborations.

Education

- **Sakarya University** 09/2013 – 01/2021
B.Sc. in Electrical & Electronics Engineering
Graduation Project: *Design of Renewable Energy Based Smart Grid Model*
- **Üsküdar Çağrıbey Anatolian High School** 09/2007 – 06/2011
Math-Science Program

Experience

- **Durko Çevre Enerji Tekniği A.Ş.** 01/2022 – Present
Sales Engineer
 - Managing sales operations and customer relations in the energy and environmental technologies sector.
 - Preparing technical-commercial proposals, conducting negotiations, and ensuring client satisfaction.
 - Coordinating with technical teams to provide tailored solutions and after-sales support.
- **Tuana Mühendislik** 11/2020 – 01/2022
Sales & Purchasing & Digital Marketing Specialist
 - Oversaw purchasing operations, supplier negotiations, and vendor management to optimize costs.
 - Designed and executed digital marketing campaigns (Google Ads, Facebook, Instagram).
 - Conducted SEO strategies and audience-targeted advertising to increase customer acquisition.
 - Supported logistics, equipment installation, and technical maintenance processes.
- **İzdemir Enerji Elektrik Üretim A.Ş.** 07/2017 – 08/2017
Intern Engineer
 - Maintenance and repair works at the main control center and gas insulated switchyards in a thermal power plant.
- **Park Termik Elektrik Sanayi A.Ş.** 08/2015 – 09/2015
Intern Engineer
 - Maintenance, transformer cleaning, and winding works in a thermal power plant.

- Updated and upgraded POS devices by visiting customer stores across Istanbul.

Projects

- **Energy Transmission Problem Solver (LabVIEW)**

Developed a LabVIEW interface that solves defined problems in energy transmission lines using only input parameters. This project enhanced problem-solving efficiency by automating calculations and reducing human error in energy system analysis.

- **6-Bus Power System Modeling (PowerWorld Simulator)**

Modeled and optimized a 6-bus power system, including short-circuit analysis, load flow, voltage drop, and system improvements. Provided insights into system behavior under various operating conditions, contributing to better grid stability and reliability.

Technical Skills

- **Programming:** C# (Intermediate)
- **Engineering Software:** NI LabVIEW, PowerWorld Simulator, NI Multisim, Proteus ISIS/Ares, DIALux, Keil uVision
- **Design Tools:** AutoCAD, SolidWorks (basic)
- **Office Productivity:** Microsoft Word, Excel, PowerPoint, Outlook
- **Graphics/Video Editing:** Adobe Photoshop, Lightroom, Premiere Pro, Sony Vegas Pro, Camtasia
- **ERP/CRM Platforms:** Zirve, Logo CRM/Tiger
- **Digital Marketing:** SEO, Google Ads, Facebook Business Manager, Instagram Ads

Certifications

- Google Fundamentals of Digital Marketing – BTK Akademi (2021)
- Search Engine Optimization (SEO) – BTK Akademi (2021)
- C# Training (2020)
- German Language A1-A2 – Istanbul Business Institute (2020)

Languages

- English – B1
- German – A1

Awards

- YouTube 100,000 Subscriber Award – Sulugöz (2019)
- Marmara Folk Dance Championship – Turkish Folk Dance Federation (2007)
- Üsküdar Folk Dance Championship – Turkish Folk Dance Federation (2006)
- Middle School Honor Degree – Lütü Erçin Middle School (2007)

Hobbies

- **Music & Creativity:** Playing and producing music as a creative outlet; following global trends in digital music production.
- **Sports & Well-being:** Engaging in sports and fitness to build resilience and teamwork.
- **Culture & Arts:** Participating in concerts, festivals, and cultural events for continuous personal growth.
- **Digital Media:** Creating content and exploring social media dynamics as both passion and professional interest.
